12. Selanjutnya kita bisa mengatur pengaturannya seperti gambar di bawah ini. (sesuai kebutuhan)

The screenshot shows the 'Behavioural settings' panel. Three red arrows point to specific options: 'Enable "Retry"' (unchecked), 'Drop Zone Highlighting' (set to 'Never'), and 'Show score points' (checked).

▼ Behavioural settings

- ☐ Enable "Retry"
- ☐ Give one point for the whole task
Disable to give one point for each draggable that is placed correctly.
- ☒ Apply penalties
Apply penalties for elements dropped in the wrong drop zones. This must be enabled when the same element(s) are able to be dropped into multiple drop zones, or if there is only one drop-zone. If this is not enabled, learners may match all items to all drop-zones and always receive a full score.
- ☒ Enable score explanation
Display a score explanation to user when checking their answers (if the 'Apply penalties' option has been selected).

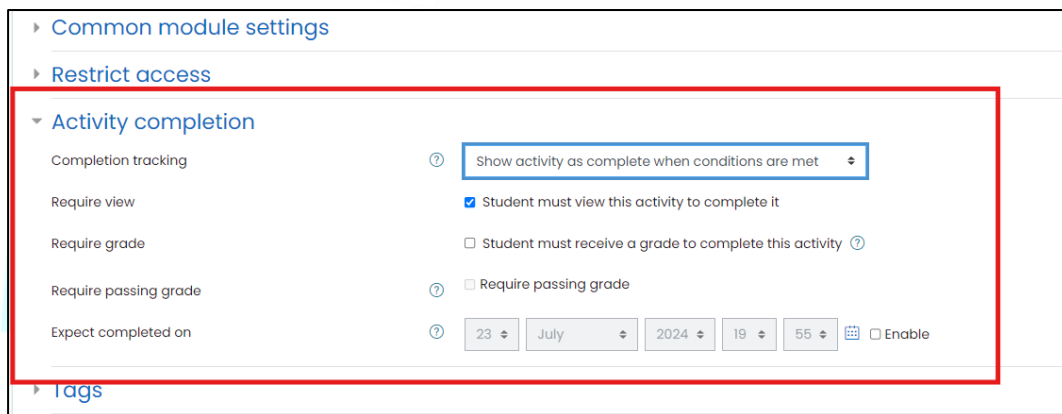

Background opacity for draggables
If this field is set, it will override opacity set on all draggable elements. This should be a number between 0 and 100, where 0 means full transparency and 100 means no transparency

Drop Zone Highlighting
Choose when to highlight drop zones.

Spacing for Auto-Align (in px)

- ☐ Enable FullScreen
Check this option to enable the full screen button.
- ☒ Show score points
Show points earned for each answer. Not available when the 'Give one point for the whole task' option is enabled.
- ☒ Show Title
Uncheck this option if you do not want this title to be displayed. The title will only be displayed in summaries, statistics etc.

13. Kemudian Atur **Activity Completion** : Show activity as complete when..... seperti gambar di bawah ini.

The screenshot shows the 'Activity completion' settings. A red box highlights the 'Show activity as complete when conditions are met' dropdown menu, which is set to 'Show activity as complete when conditions are met'.
